Welcome to the September 2005 edition of the Radio HF Internet Newsletter. I would particularly like to welcome any new subscribers this month. We have a great selection of links to web sites to pass along to you this month.

For obvious reasons, one particular subject will dominate the Newsletter this month. We have all been watching, often in disbelief, the situation in the U.S. Gulf coast, including Louisiana, Alabama, Mississippi and surrounding areas. The devastation created by Hurricane Katrina is simply unbelievable. The main focus has been on the major city of New Orleans, but there are hundreds of other cities, and hundreds of thousands of people in other areas that have also had their world turned upside down.

In addition to our usual collection of interesting websites, I have put together a number of sites related to what is going on in the U.S. south-east. I'm sure you will find these resources of great interest.

In the midst of everything else going on, do not forget the anniversary of the attack on the World Trade Centre in New York on the now infamous September 11th. I have included, in the General Zone, a few sites which archive the events of September 11th.

To any of our subscribers directly affected by the hurricane, and to any others who have family and friends in the area, I wish you well in your recovery efforts. Our thoughts are certainly with you all.

SPECIAL NOTE IN THE RESOURCES ZONE: In the Canadian International DX Club listing in the Resources Zone, please note that there is an offer for a free sample of the monthly CIDX electronic newsletter, Messenger.

Radio HF is continuing to accept orders for the 2006 80th anniversary edition of the ARRL Handbook. As well, this month, orders are also being accepted for the 2006 Passport to World Band Radio, scheduled for release in mid to late October. See the Publicity Zone for ordering details.

THE MONTHLY SURVEY

LAST MONTH'S SURVEY

What would be your one wish to be granted by the genie in the lamp?

We had 14 responses to the survey. Most of the responses had similar or common threads to them. 4 people ask for good, or restored health. Three wished for world peace. Two people thought this out carefully, asking for additional wishes!!

THIS MONTH'S SURVEY

The devastation caused by Hurricane Katrina is almost beyond belief. Many areas of the Gulf Coast have been severely damaged, but much of the attention focuses on the city of New Orleans, a city built almost exclusively below sea-level. Our question relates to the possible re-construction of the city. What should the United States do about the city of New Orleans?

a) Completely rebuild and restore the city in its current location
b) Rebuild the city, but relocate it to a safer location
c) Bulldoze and level the whole city and return the area to its natural habitat
d) Other suggestions? Please specify.

Please send your response, by e-mail, to hfnewsletter@...

NEW FROM ETON/GRUNDIG
THE ETON ELITE SERIES

Grundig, long known as a manufacturer of shortwave radios, is now operating under the name of Eton. They have just released a new series of shortwave radios, the Elite series. It includes two portable AM/FM/SW receivers, the E-10 and the E-100. They have also introduced the long anticipated E1-XM, AM/FM/SW & XM Satellite receiver.

The E1-XM was originally to be called the Satellit 900, but it has now been released with the E1-XM designator.

For a look at these new radios, please visit:

Satscape is a Freeware Program for the PC. It produces real-time displays of where any Satellite is, and predicts passes for your locale. There are about 8000+ satellites in orbit, a lot of these are just junk and debris such as discarded rocket bodies, but quite a few are working Satellites.
Their positions can be calculated very accurately using pure maths, no need for a huge radar dish in your back garden. Satscape will do the maths for you, and present their positions in a nice graphical way. Passes over your part of the world can be predicted weeks in advance in a matter of seconds.

VIA Sheldon Harvey, Greenfield Park, Quebec

Killradio.org is a collective organization committed to using media production and distribution as a tool for promoting social and economic justice. We intend to promote the proliferation of radio in whatever form is necessary in order to challenge the corporate domination of our airwaves. It is our goal to further the self-determination of people under-represented in media production and content, and to illuminate and analyze local and global issues that impact ecosystems, communities and individuals. We seek to generate alternatives to the biases inherent in the corporate media controlled by profit, and to identify and create positive models for a sustainable and equitable society. Listen to their on-line radio broadcast as well.

NEW FROM YAESU

THE YAESU VX-6R Tri-band Portable

The Yaesu VX-6R is a triple band (2M, 220 & 440 MHz) HT with extensive receive coverage, and leading-edge features. It is an easy-to-use "little brother" to the VX-7R, and is both submersible (JIS7: 30 minutes of submersion at depth of 3 feet) and extremely rugged. The VX-6R provides wide receiver coverage at 504 kHz ~ 998.99 MHz (cellular blocked), and puts out 5 Watts of power on the 144 and 430 MHz bands (1.5 W on 222 MHz). The standard memory has 900 channels with 6-digit alpha numeric tag, and 24 memory banks for channel allocation.

Supplied with an incredibly compact FNB-80LI 1400 mAh Lithium-Ion battery pack, the VX-6R includes a number of new and innovative features, including the new "Emergency Automatic ID" (EAI) system, which automatically causes the VX-6R to transmit your call sign and engage your rig's microphone, even if you are disabled and unable to press the PTT switch; Enhanced Paging and Code Squelch (EPCS), that allows you to page a particular station and only receive calls from that station, if desired.

You will find details on the Yaesu VX-6R, including complete PDF versions of the manual and publicity flyer, at:

http://www.yaesu.com/?cmd=DisplayProducts&DivisionID=65&ProdCatID=111

The VX-6R, together with other Yaesu products, is available from Radio HF. Please contact Radio HF for complete details.
